Custom Designs • Expert Solutions

Gas Charged  
PD Series

Maintenance Free  
DR Series

Cartridge Style  
Status Flow Series

## Performance Pulsation Control

Specialists in the engineering, design & manufacture of pulsation control devices.

**Gas Charged**  
• PD Series

**Maintenance Free**  
• DR Series

**Cartridge Style**  
• Status Flow Series

## Who We Serve

We proudly serve customers world-wide, with a full range of products for:

Oil & Gas • Drilling • Well Service • Refinery

Industrial • Water Treatment • Mining • Chemical Plant

## What You Can Expect

- Worry-Free customer experience through expert project management
- Unmatched engineering and broad applications knowledge
- Made in the USA to the highest quality standards - ASME Code
- Fast delivery

## Additional Services

### **Pump & System Dynamic Acoustic Analysis**

- Full evaluation of pressure, vibration and hydraulic data
- Comprehensive performance improvement recommendations

### **Refurbishment**

- Renewal of dampener to increase service life, lower costs, and increase efficiency and safety
